

Brief Specification

EME were appointed to carry out upgrade works at Python Hill Primary School to include the following:

- General and emergency lighting installation
- New fire alarm throughout the building
- Upgrade of Electrical Infrastructure
- Legionella upgrade works
- Mechanical installation modifications to bring the installation up to current standards

The project consisted of a complete upgrade of the existing Emergency lighting and Fire Alarm throughout the building and upgrade and testing of existing mechanical systems. This was all carried out during school occupation and during out of hours' work and in line with the school timetable and evening activities. This required accurate planning with both the school and main Contractor so ensure minimum disruption to the school.

Project Type: Traditional contract

Project Duration: Commenced November 2013,
completed March 2014

Project Value: £52,130.40
