

Brief Specification

Mechanical and Electrical Design and Build project for a leading National Sports Training Facility.

EME have been appointed to undertake the Mechanical and Electrical Design, installation and commissioning works comprising of a New Build Sports Hall and Sports Injury Clinic for multi sports. The scheme has been designed around the Sports England guide lines to achieve an International standard of play and incorporates LPG radiant heating for the Sports Hall, Air Conditioning and Heat Recovery, photovoltaic systems, BMS controls, new plant rooms and intelligent lighting and lighting control systems

The redundant Sports Injury Clinic has been re-developed into 25 new en suite bedrooms; incorporating new Air Conditioning systems, heat recovery systems, general lighting and power, Fire alarm and Security systems. The work has been undertaken within normal operating hours whilst maintaining the clients current heating and electrical systems for the remainder of the seminar facilities and offices.

Project Type: Fixed Price Lump Sum Design and Build

Project Duration: Commenced June 2012, completed April 2013

Project Value: £900,000
